

Cubbit is hiring

Job Offer **Frontend Developer** Full time

Info: careers@cubbit.io

About Cubbit

At Cubbit we envision a new internet: privacy-first, green, accessible, with no one in control.

To get there, we are on a mission to recycle the internet resources we waste into the most competitive & cybersecure web services.

We're building the world's **1st distributed cloud provider**, that needs no costly and polluting data-centers to run.

The first step is disrupting cloud storage for users, and we started with a Kickstarter launch that got into the **top 1% of most funded campaigns in history**.

Then, we are bringing cloud storage for businesses to the next level, by making privacy a right and not a premium feature.

It's not only about cloud storage, though. Hosting, VPN, CDN, distributed cloud computing will follow soon. We're building all this together with our world-class partners such as **Techstars, Barclays and the European Commission**.

Headquarters: Bologna, Italy w/ a branch in Tel Aviv, Israel

Job Description

We not only apply cutting-edge technology. We create it.

We are looking for an excellent Frontend Developer with proven outstanding technical and analytical capabilities and the ability to get the job done within specified deadlines and requirements. The candidate must be comfortable working in a team of widely-recognized top class developers as well as independently when needed.

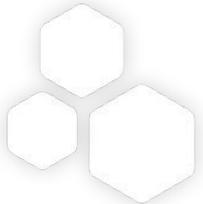

What you'll do:

- Develop Cubbit's software (Frontend).
- Partner with other tech team members and our design team to define the best approach to visualize elements into our product.
- Enrich the frontend part of our software's new features such as smart sync, collaborative sharing and hosting.
- Support in getting info from our users to create a better product from their insights
- Support other (development) teams and individuals with your knowledge, skills, and expertise. As part of Techstars we share its number one rule: "Give first". We help others whenever possible, deliberately creating a virtuous cycle.

Your Profile and Mindset:

- Independent: a highly motivated self starter who is ready to dig in, hustle, find solutions and deliver.
- Market-driven: in everything you do, follow the golden rule of "do not waste a second nor a dime to build something people do not want".
- Data-driven: know how to digitally engage with customers, measure their responses, define KPIs to test your hypothesis and choose a strategy.
- Methodical: be efficient in reporting to founders, or sharing findings with the team.
- Ambitious: think big, start small, scale fast. Join us in building a born global startup.
- Humble: know that you don't know, learn from the top tier, don't reinvent the wheel but raise the bar.
- Proactive participant in our culture.

What you absolutely need:

- HTML5
- CSS3 (with experience in css-grid and flexbox)
- Typescript
- React
- Redux
- Webpack
- Web workers
- Styled components

Nice to have:

- WebRTC
- NodeJS
- Docker

Bonus Points:

- Experience with PWA
- WebSockets
- WebAssembly
- Emscripten
- Experience with browser extensions
- WebGL
- Bazel

Benefits:

- A vibrant, young, and informal workplace.
- Remote work possible after a first period working with the team in Bologna to assimilate Cubbit culture and product knowledge.
- Opportunity to participate in the best world fairs and events linked to the tech world.
- Possibility to move in different countries during your career.
- Periodic activities with the team, and everyday passion.

Location, Commitment & Contract

Bologna is a world-famous city for food, a young vibe due to the oldest University in the western world as well as great life style and services. Less than 1 hour from Florence and Milan, and very close to nicest places in Italy: Venice, Rome, Tuscany, Dolomites and the lakes etc.

The type of contract will be defined together with the founders.

We don't choose people based on the contracts we can offer, but we optimize the contract based on the person we choose. Let's talk soon then.

If you're a hard worker, an inspiring leader, a humble team player, and a dreamer at heart, Cubbit is the place you are looking for.

Please apply even if your experience isn't an exact match with what we've laid out in this job description. We're building something different at Cubbit.

If that sounds interesting, we want to hear from you.

If you're interested, please contact us and send your CV
