

Cubbit is growing

Tech Wiz - Student Internship Program

Cubbit collects great minds to give great opportunities

Info: careers@cubbit.io

About Cubbit

At Cubbit we envision a new internet: privacy-first, green, accessible, with no one in control.

To get there, we are on a mission to recycle the internet resources we waste into the most competitive & cybersecure web services.

We're building the world's **1st distributed cloud provider**, that needs no costly and polluting data-centers to run.

The first step is disrupting cloud storage for users, and we started with a Kickstarter launch that got into the **top 1% of most funded campaigns in history**.

Then, we are bringing cloud storage for businesses to the next level, by making privacy a right and not a premium feature.

It's not only about cloud storage, though. Hosting, VPN, CDN, distributed cloud computing will follow soon. We're building all this together with our world-class partners such as **Techstars, Barclays and the European Commission**.

Headquarters: Bologna, Italy w/ a branch in Tel Aviv, Israel

Job Description

A three step internship program to find your professional path and the chance to become a stable member of our team.

Bolognese born and Global by choice.

As part of Techstars Community we share its number one rule: **“Give first”**. We help others whenever possible, deliberately creating a **virtuous cycle**.

For this reason we want to provide the **best Unibo students** with an internship able to help them **grow and find their path**.

What you'll do:

Warm-Up

- Providing technical communication to customers regarding the Cubbit technology, infrastructure and processes through multiple platforms
- Providing technical support to customers
- Gathering technical issues and bugs and filing bug reports for the development team
- Assisting in the quality assurance (QA) processes for both the continually developing Desktop and Web applications (testing functionality, design, user experience, and possible automation to streamline the process)
- Assisting in the generation of technical and informative FAQs, tutorials and documentation for our users

Exploration

- You now need to handle more of the previous tasks
- You will manage these tasks in completely autonomous way, escalating when necessary
- Start to study and approach the Cubbit backend and frontend technology
- Start to understand and approach coding tasks at Cubbit - see what you think!

Race

- You are completely autonomous and confident in dealing with previous tasks
- You will teach to the new members of the always growing team what you know
- Your internship comes to an end. If you have shown the right skills and attitude you can start a collaboration with Cubbit in one of our teams

What you'll need

- Deep customer centric approach
- Willingness to improve Cubbit Technical CX
- Capacity to take and solve challenges
- Very strong English language skills
- Great communication skills
- A passion for technology and some experience troubleshooting technical problems
- Javascript knowledge (Nice to Have)
- Typescript basic knowledge (Nice to Have)

Location, Commitment & Contract

Bologna is a world-famous city for food, a young vibe due to the oldest University in the western world as well as great life style and services. Less than 1 hour from Florence and Milan, and very close to nicest places in Italy: Venice, Rome, Tuscany, Dolomites and the lakes etc.

The internship program is strictly designed for university students.

We don't choose people based on the contracts we can offer, but we optimize the contract based on the person we choose.
Show us your skills till the end of the internship.
Let's talk soon then.

Your Profile and Mindset:

- Independent: a highly motivated self starter who is ready to dig in, hustle, find solutions and deliver.
- Market-driven: in everything you do, follow the golden rule of "do not waste a second nor a dime to build something people do not want".
- Data-driven: know how to digitally engage with customers, measure their responses, define KPIs to test your hypothesis and choose a strategy.
- Methodical: be efficient in reporting and sharing findings with the team.
- Ambitious: think big, start small, scale fast. Join us in building a born global startup.
- Humble: know that you don't know, learn from the top tier, don't reinvent the wheel but raise the bar.
- Proactive participant in our culture.

Benefits:

- A vibrant, young, and informal workplace.
- Opportunity to participate in the best world fairs and events linked to the tech world.
- Possibility to move in different countries during your career.
- Periodic activities with the team and everyday passion.

If you're a hard worker, an inspiring leader, a humble team player, and a dreamer at heart, Cubbit is the place you are looking for.

Please apply even if your experience isn't an exact match with what we've laid out in this job description. We're building something different at Cubbit.

If that sounds interesting, we want to hear from you.

If you're interested, please contact us and send your CV
