

Cubbit is hiring

Job Offer **UI Designer** Full time

Info: careers@cubbit.io

About Cubbit

At Cubbit we envision a new internet: green, privacy-friendly, safe, with no one in control. We're building the first distributed data center, made by the users for the users. Started with a successful Kickstarter campaign, our vision is contagious: indeed, Cubbit is growing fast all over the world and is going to double the team in the next months.

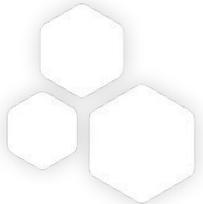

We collaborate with partners such as CERN, Samsung, TIM, and Masmovil. Our distributed cloud technology has been presented as an excellence in several scientific and technological conferences. Also, we are part of a EU-wide project to renovate the cloud infrastructure for science.

Cubbit is a hi-tech, distributed cloud startup. Headquartered in Bologna, Italy, with a branch in Tel Aviv, Israel, Cubbit counts Techstars and Barclays among its global-class shareholders.

Job Description

For our office in Bologna we are looking for a master of end user configuration; a UI designer, with experience in creating clear interfaces from concept to execution. The candidate will become part of an innovative, fast-paced context and will work with the tech team and the marketing team.

Please apply even if your experience and interests aren't an exact match with what we've laid out in this job description. We're building something different at Cubbit. If that sounds interesting, we want to hear from you.

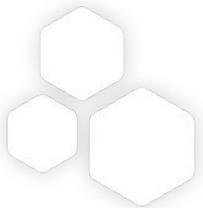

What you'll do:

- Design user flows, wireframes, interface prototypes and collect feedback from colleagues and users to guide development.
- Collaborate closely with marketers and engineers to deeply understand the needs of our users and build a product that serves those needs.
- Improve the team and the company: you will be an active participant in our culture (mentorship, interviewing, and new initiatives).

Your Profile and Mindset:

- Proven ability to solve conceptual problems in collaboration with the entire team.
- Obsessive attention to details.
- Creative mindset.
- Ability to empathize with other people and to understand the world from someone else's perspective
- Hungry to change the world starting from changing the cloud computing experience.
- You are not just a designer, you love design intellectually, technically, creatively.

What you'll need:

- Solid user-centered design fundamentals with extraordinary visual design skills and the ability to quickly produce high quality deliverables;
- Great experience with Sketch;
- Working knowledge in HTML, CSS;
- Experience in building and use Design Systems.
- Strong online portfolio showcasing your work on UI design and web/mobile projects.

Bonus points:

- Working experience in Javascript.
- Strong graphic skills.
- Experience with InVision/Figma/Marvel and Principle.

Benefits:

- A vibrant, young, and informal workplace.
- Remote work possible after 6 months working with the team.
- Opportunity to participate in the best world fairs and events linked to the tech world.
- Possibility to move in different countries during your career.

Location, Commitment & Contract

Heart of Bologna, city famous for food, warm, and young people as well as great life style. Less than 2 hours from the nicest places in Italy: lakes, Tuscany, Venice etc.

The type of contract will be defined together with the founders.

If you're a hard worker, an inspiring leader, a humble team player, and a dreamer at heart, Cubbit is the place you are looking for.

Contacts

If you're interested, please contact us and send your CV
