Job Offer **Web Designer** Full time

Info: [careers@cubbit.io](mailto:careers@cubbit.io)

## About Cubbit

At Cubbit we envision a **new internet**: green, privacy-friendly, safe, with no one in control. We're building the first distributed data center, made by the users for the users. Started with a successful Kickstarter campaign, our vision is contagious: indeed, Cubbit is growing fast all over the world and is going to **double the team** in the next months.

We collaborate with partners such as **CERN, Samsung, TIM, and Masmovil**. Our distributed cloud technology has been presented as an excellence in several scientific and technological conferences. Also, we are part of a EU-wide project to renovate the cloud infrastructure for science.

Cubbit is a hi-tech, distributed cloud startup. Headquartered in **Bologna**, Italy, with a branch in **Tel Aviv**, Israel, Cubbit counts **Techstars** and **Barclays** among its global-class shareholders.

## Job Description

**We not only apply cutting-edge technology. We create it.**

We are looking for a creative web developer, with experience in creating and managing web applications as well as a solid know-how of design.

The candidate will become part of an innovative context and will work with our tech, design and marketing teams.

You can apply even if your experience and interests aren't an exact match with what we've laid out in this job description. We are building something different at Cubbit and if this sounds interesting, we want to hear from you.

### What you'll do:

- Take full ownership of engineering projects from design to implementation, deployment, and maintenance
- Collaborate closely with designers, marketers, and engineers to deeply understand the needs of our users and build a product that serves those needs.
- Be part of our growth team that will work to test and develop new business opportunities.

The annual gross wage ranges between 26k and 34k euros according to your previous experiences, the skills you have and your ability to work in team and eventually manage other junior developers.

### Your Profile and Mindset:

- Demonstrated design sensibility, with a preference for clean and simple work.
- Obsessive attention to details.
- Creative mindset.
- Team player.
- Ability to create concepts on the fly and collaborate across teams to get things done.
- Hungry to change the world starting from changing the cloud computing experience.

### What you'll need:

- Proficiency in HTML5, CSS3 and Javascript (ECMAScript 6).
- Deep understanding of React / Redux (preferably) or VUE.
- Good knowledge of Git.
- Fluent English
- Proficiency with Sketch, Illustrator, Photoshop, or any software for static prototyping.

### Bonus points:

- Typescript, Webpack.
- Experience in referral programs and virality
- Fluent Italian.

### Benefits:

- A vibrant, young, and informal workplace.
- Remote work possible after 6 months working with the team.
- Opportunity to participate in the best world fairs and events linked to the tech world.
- Possibility to move in different countries during your career.

### Location, Commitment & Contract

Heart of Bologna, city famous for food, warm and young people as well as great life style. Less than 2 hours from the nicest places in Italy: lakes, Tuscany, Venice etc.

Full time job. The type of contract will be defined together with the founders.

*If you're a hard worker, an inspiring leader, a humble team player, and a dreamer at heart, Cubbit is the place you are looking for.*
